

UniTbl (UTBL) Whitepaper v2.0

The Future of Decentralized Education & Staking Ecosystem

1. Executive Summary

UniTbl (UTBL) is a BEP-20 utility token that fuels **Loopra**, a dual-engine ecosystem composed of a capital-efficient staking protocol and a decentralized education marketplace.

- **Loopra Staking:** Converts deposits into predictable, time-boxed yield streams paid in UTBL.
- **UniTbl University:** Token-gates courses and micro-credentials while paying educators via a 10-level referral tree.

2. Vision & Mission

Our mission is to empower global talent to learn, earn, and build without intermediaries or predatory fees.

- **Access:** Removing financial and geographic barriers to skill-building.
- **Auditability:** Immutable contracts for transparent payouts and tamper-proof certificates.

3. Token Details & Security

- **Name:** UniTbl
- **Symbol:** UTBL
- **Network:** BNB Smart Chain (BEP-20)
- **Decimals:** 18
- **Max Total Supply:** 1,000,000,000,000
- **Contract Address:** 0x92E5292Baeb9B70268E7472ee614256925D48336
- **Transaction Tax:** 0% (Zero Fee Policy)
- **Contract Status:** Verified on BscScan

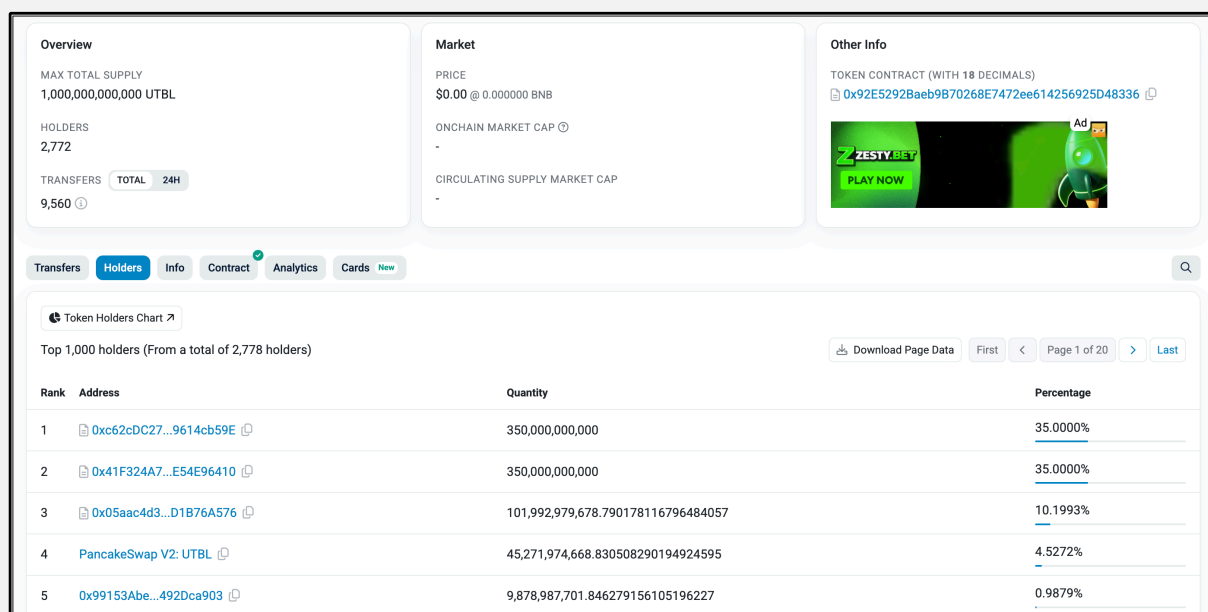

4. Strategic Token Allocation

To ensure long-term stability and protect the community, the supply is distributed as follows:

Category	Share	Unlock Logic
Institutional Lock A	35%	12-month cliff; 1.5% linear vest every 3 months
Liquidity-Linked Lock B	35%	Unlocks 5% quarterly only if Liquidity > \$500,000
Loopra Rewards Vault	10%	Locked for staking yields and referral commissions
Community & Holders	15%	Circulating supply (No holder > 1%)
Initial Liquidity	5%	Locked in PancakeSwap V2

5. Architecture & Security

- **Staking Protocol:** Users choose 30–360-day plans with flat monthly UTBL yields.
- **Security Layers:** Modular libraries (LibStake, LibClaim) minimize risks, while ReentrancyGuard and Pausable switches provide emergency protection.
- **Oracle Integrity:** Uses Median PancakeSwap TWAP and Chainlink feeds to prevent price manipulation.

6. Roadmap 2026

- **Q2:** Community expansion and CoinMarketCap/CoinGecko Verification.
- **Q3:** Strategic partnerships with global EdTech creators and Tier-3 exchange listings.
- **Q4:** Achieving the \$500,000 liquidity milestone to activate Lock B release.

7. Conclusion

Loopra merges transparent DeFi yields with token-incentivized education. Through disciplined treasury management and multi-layer security, UTBL is the connective tissue for tomorrow's decentralized economy.

8. Roadmap

- **Phase 1:** Global Community Building & CMC/CoinGecko Listing.
- **Phase 2:** Strategic Partnerships with International EdTech Creators.
- **Phase 3:** Reaching the \$500,000 Liquidity Milestone to trigger Lock B release.
- **Phase 4:** Launch of Advanced DAO Governance for UTBL holders.

UTBL is a utility token and does not convey equity or profit rights beyond future DAO governance. Seek professional advice before participating.
